Mountain Weather Forecast

Peak District National Park

Forecast valid from 00:00 on Monday 20 Sep 2021 until 23:59 on Tuesday 21 Sep 2021

Forecast Issued on Sunday 19 Sep 2021 at 12:13

Confidence: High for largely dry weather until Wednesday then for a change to windier, wetter and cooler conditions. The main uncertainty relates to the extent of low cloud and associated poor visibility from later on Monday.

Headline for Monday 20 Sep 2021: Dry, warm and sunny with light winds.

Mountain weather hazards on Monday 20 Sep 2021

Blizzards No Likelihood	**Heavy Snow** No Likelihood	**Storm force winds** No Likelihood
Gales No Likelihood	**Severe chill effect** No Likelihood	**Poor visibility** No Likelihood
Thunderstorms No Likelihood	**Heavy persistent rain** No Likelihood	**Strong sunlight** Medium Likelihood

Forecast for Monday 20 Sep 2021

Weather: Clear skies through the early hours will likely lead to a few patches of mist and fog developing in the valleys. Any mist or fog which does form will gradually disperse an hour or two after dawn, leaving a dry day with largely unbroken sunshine. Cloud thickening from the west after dark with fog descending onto the hills.

Chance of cloud free mountain/hill tops above 600m: 100% through daylight hours. Falling 70% towards midnight in the west.

Visibility: Away from any early mist or fog, visibility will be excellent with good clarity to the air. Areas of cloud above 500m will spread eastwards well after dark.

Forecast for Tuesday 21 Sep 2021

Weather: A cloudier and breezier day compared to Monday, but dry conditions are expected throughout. Some low cloud across the hills initially will lift to leave a bright afternoon with some sunny breaks. Dry through evening with some low cloud returning.

Maximum wind: West or southwest 20-25mph.

Chance of cloud free mountain/hill tops above 600m: 60% early and late, otherwise 95%.

Visibility: Some patchy cloud cover above 500m is likely through morning and again from late evening, predominantly on western slopes. Away from these, very good visibility is expected affording far reaching views.

Temperature: **Valleys:** Plus 10 Celsius rising to 20 Celsius.
At 600m: Around plus 12 Celsius.
Freezing level: Well above summits.
